EVIDENCE ME

RECORDING YOUR CHILD'S LEARNING JOURNEY THROUGHOUT THE EYFS

WHAT IS EVIDENCE ME?

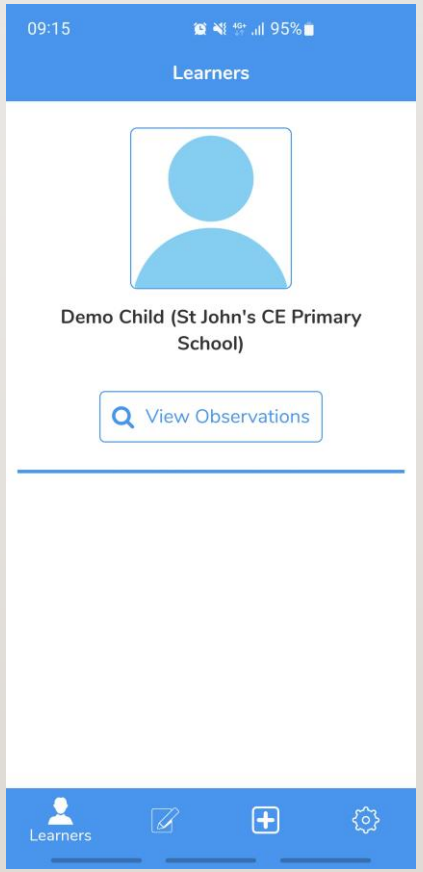

- Evidence me is a software tool that we use at St John's to record your child's learning.
- This takes place through 'observations', where your child will demonstrate their knowledge and understanding through an activity or in play.
- These observations are collated in what is called a 'learning journey' which is like a digital book of all your child has achieved throughout their time in EYFS.

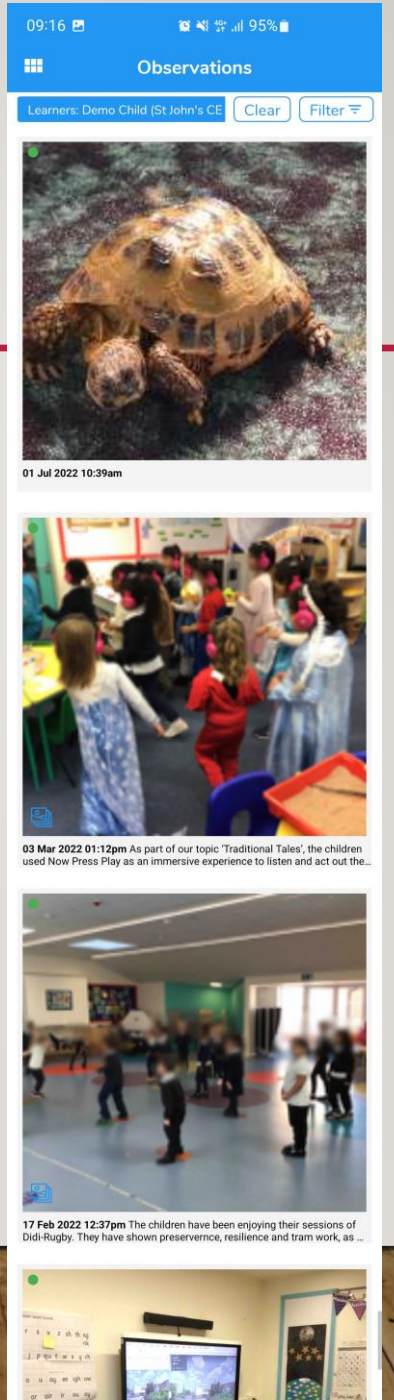

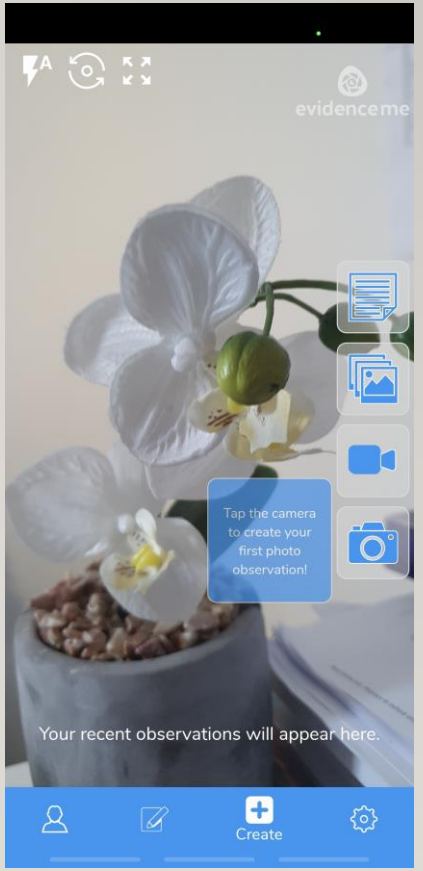

INVITATIONS

- You may have already received recently, or will very shortly receive an email from donotreply@evidence.me that will invite one parent to sign up.
- Once you have signed up, you will be able to download the Evidence Me app on any smart device and see your linked child and their observations.
- You will then be able to create your own observations of significant achievements and 'Wow!' moments at home.

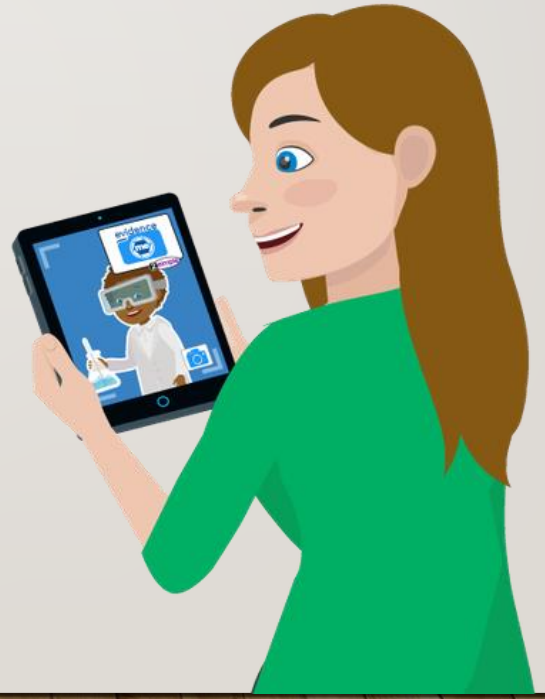

DEMONSTRATION

- For those unable to attend this presentation, we recommend you explore the app and try taking a picture of your child learning /achieving at home to learn how it works.

THANK YOU FOR COMING!

I will be happy to answer any questions individually before leaving.
